## PROFILE

Driven and committed engineering student with a strong foundation in software engineering and front-end development. competent with JavaScript, HTML, CSS, and contemporary front-end frameworks like React. Exhibits exceptional problem-solving skills and a versatile approach to addressing technological obstacles. Strong interpersonal communication abilities, a love of learning new technologies, and an enthusiasm for improving user experiences through functionality and design.

## EXPERIENCE

### MERN Full Stack Intern

Ethnus

September 2023 - November 2023

- Contributed to the Design and development of a **website** named **Art Gallery** an online **art gallery management system** featuring functionalities such as artwork cataloging, artist profiles, and exhibition.
- Designed user-friendly interfaces ensuring a visually appealing and engaging experience.
- Developed frontend components using HTML, CSS, and JavaScript.
- Implemented responsive design to optimize the website for various devices and screen sizes.
- Utilized modern frontend frameworks (React/Angular) to enhance interactivity and performance.
- Conducted testing and debugging for cross-browser compatibility to create an intuitive and responsive user experience

Tech Stacks: HTML, CSS, Javascript and React

## EDUCATION

### Bachelors of Technology in Computer Science

Vellore Institute of Technology

2021 - Present

Bhopal, India

### Higher Secondary

St. Joseph's College

2020

Prayagraj, India

### Secondary

St. Joseph's College

2018

Prayagraj, India

## CERTIFICATIONS

- Google cloud computing foundation
- Applied Machine Learning in Python

## COURSEWORK

- Operating System
- Computer networks
- Object oriented programming
- Database management System

## PROJECTS

### Food ordering website:

- HTML | CSS | Javascript | React JS | Tailwind | API**
- Developed a responsive and interactive user interface using HTML, CSS, JavaScript, and React JS.
- Implemented dynamic menu displays and interactive order forms with React.
- Integrated Firebase for real-time database management and user authentication.
- Implemented RESTful APIs to facilitate dynamic menu updates and order processing.

### Netflix-clone:

- HTML | CSS | Javascript | React JS | Tailwind | Firebase**
- Developed a responsive and dynamic user interface using HTML, CSS, JavaScript, and React.
- Implemented Firebase Authentication for secure user sign-in and registration.
- Integrated third-party APIs to fetch and display movie data, ensuring a seamless user experience.

### Weather web-app:

- HTML | CSS | Javascript | React JS | Weather API**
- Integrated a weather API to fetch and display real-time weather data based on user input.
- Implemented dynamic updates and location-based weather forecasts for an enhanced user experience.

## KEY ACHIEVEMENTS

- Leetcode**
- 150+ problems solved on multiple platforms
- Participated in various hackathon conducted by Coding club and android club in VIT Bhopal.
- Core Member of the Fusion club of VIT Bhopal.

## SKILLS

- Programming Languages**
  - Java
  - SQL
- Database management**
  - MySQL
  - MsExcel
- Full Stack Web Development**
  - HTML, CSS, Javascript
  - ReactJS, NodeJS, ExpressJS
  - MongoDB, Firebase
  - git, Github

## ADDITIONAL INFORMATION

- Hobbies**
  - Playing Games – Cricket, Chess
  - Travelling, Movies
- Languages**
  - English
  - Hindi
